## The Foundation: HCOM™ (Healthy Camp Operating Model)

Everything HCC does flows from one framework.

HCOM™ is a four-layer operating model that turns good intentions into observable, repeatable, measurable culture. Every product, every engagement, every recommendation connects back to these four layers:

- **Structure** — Governance, roles, decision-making clarity
- **Translation** — Turning values into observable behaviors and daily practices
- **Formation** — Staff development, leadership pipelines, spiritual formation
- **Protection** — Safety systems, risk management, hospitality-driven compliance

Most camps are strong in one or two layers. Sustainable health requires all four working together.

---

## Products & Frameworks

### Camp Health Snapshot™

A diagnostic evaluation tool that gives camp leadership a clear, honest picture of organizational health across all four HCOM™ layers.

- Structured assessment of culture, safety, leadership, and operations
- Identifies strengths, gaps, and highest-impact opportunities
- Produces a prioritized action plan — not just a score
- Included in every consulting engagement as the starting point
- Can be purchased standalone for camps not ready for full engagement

*Think of it as the blood work before the treatment plan.*

---

### Counselor-Proof Camp Culture System™

HCC's flagship product. A complete camp culture operating system that translates values into observable, trainable, measurable staff behaviors.

Module 0 (the foundation) plus seven modules:

1. Purpose, Mission & the Experience Flow — The Why: why this camp exists and the PLAY → CONNECTION → COMMUNITY → WONDER arc
2. Values → Observable Behaviors — Translating beliefs into daily actions
3. Safety Is Hospitality — Safety as culture, not compliance
4. Leadership & Boundaries — How supervisors set the tone
5. Supervisor Calibration — Coaching rhythms and accountability
6. Staff Retention Culture — Keeping the people who carry the culture

7. Reflection & Growth — Individual and team development
8. The Director's Role — How leadership reinforces what counselors model

**Available in two editions:**

- **Christian Camp Edition** — Scripture integrated, Spirit-led language, discipleship-framed. Faith-forward without being manipulative.
- **General Camp Edition** — Character and formation language, values-centered, no theological friction. Same operational structure — different language track.

*The system that makes your culture counselor-proof — not counselor-dependent.*

---

### Camp VDMS™ (Value-Driven Management System)

A director and board-level governance framework for camps navigating organizational complexity.

- Defines stakeholder value — what campers, families, staff, donors, and the community need
- Establishes priority-setting frameworks that prevent reactive management
- Aligns mission at every level of leadership
- For faith-based camps, integrates faith into operational decision-making (built in — not bolted on)
- Scales across multi-site and multi-season operations

**Best for:**

- Executive directors navigating growth or transition
- Boards seeking clarity on governance and accountability
- Founding directors preparing for long-term sustainability
- Camps where strategy and operations have drifted apart

*The framework that keeps the mission in the driver's seat.*

---

## Engagement Tiers

HCC doesn't offer one-size-fits-all consulting. Every engagement is scoped to match a camp's actual needs, readiness, and capacity.

### Tier 1: Focused Clarity

For camps that know what's wrong and need help fixing one thing well.

A targeted, time-bound engagement that addresses one or two priority areas within the HCOM™ framework. Best for camps with a specific pain point and limited bandwidth.

**Includes:**

- Camp Health Snapshot™ + debrief
- Focused diagnostic review (1–2 HCOM™ layers)
- Implementation plan with clear deliverables
- One core product delivered (playbook, SOP set, or training system)
- Follow-up review call at 60 days

---

### Tier 2: Framework Design

For camps ready for comprehensive, measurable transformation.

A full system engagement that addresses multiple HCOM™ layers and produces measurable outcomes. Best for directors tired of patching individual problems and ready to build sustainable infrastructure.

**Includes:**

- Camp Health Snapshot™ + full organizational diagnostic
- Multi-layer HCOM™ implementation plan
- Counselor-Proof Camp Culture System™ deployment
- Pre-season baseline + mid-season checkpoint + post-season impact survey
- Director coaching throughout the engagement
- Supervisor calibration sessions
- Board presentation at engagement close
- Final Engagement Summary Report

---

### Tier 3: Strategic Partnership

For camps that want HCC as an ongoing organizational ally.

A long-term, selective engagement for organizations committed to multi-season transformation. Includes everything in Framework Design plus ongoing support, governance coaching, and leadership development.

**Includes:**

- All Framework Design deliverables
- Multi-season implementation and coaching
- Annual Camp Health Snapshot™ + renewal assessment
- Board governance coaching
- Succession planning and leadership pipeline development
- Priority access to new HCC frameworks and products
